# RATES OF WAGES AND HOURS OF LABOUR IN CERTAIN TRADES AND OCCUPATIONS IN CANADA, 1920-1924

THE accompanying tables of wages and hours of labour are supplementary to the information given in the bulletin entitled "Wages and Hours of Labour in Canada, 1920-1924" issued with the January, 1925, number of the LABOUR GAZETTE which contained information on this subject applicable to various classes of trades and occupations as follows:—building trades, metal trades, printing, electric railway operation, electric light and power production, the manufacture of textiles, clothing, packed meats, pulp and paper, carriages, furniture, sash and doors, rubber, boots and shoes, harness and saddlery, and tobacco, also lumbering and saw milling, steam railways and mining. The bulletin referred to is No. 7 of a series of reports dealing with wages and hours of labour in Canada which has been issued by the Department of Labour containing wage rates and hours back to 1901 in certain cities throughout Canada. Apart from the wage rates and hours these bulletins contain index numbers for the different years applicable to the various industrial groups to which the reports relate.

The main object of these reports is to show the changes in wage rates and in hours during the periods covered. In each report the figures given constitute as far as is possible a continuous record and in each instance throughout the report the figures are from the same source, continuity being thereby assured within reasonable limits. Information is secured from representative employers, from labour organizations and from industrial agreements each year.

Since the compilation of the material for Report No. 7 tables have been compiled covering a number of other branches of industry and the different occupations involved therein. The information obtained for these additional compilations is presented herewith; the returns in question relate to establishments and occupations as follows: flour mills, bakeries and confectionery, breweries, distilleries, tanneries, cartage and other local transportation, grain elevators, longshoremen, laundries, telephones, electric power, and civic labourers, policemen and firemen. In most instances wages are shown by samples for the various industries.

TABLE I—SAMPLES OF RATES OF WAGES AND HOURS OF LABOUR IN  
FLOUR MILLS
